Dear Sir:

This is in response to the Office Action mailed September 10, 2002 (Paper Number 17) for the above referenced patent application. Applicants wish to thank the Examiner for his assistance in locating the references and petitions accompanying the Information Disclosure Statements filed on December 7, 2001 and May 3, 2002. Applicants also wish to thank the Examiner for confirming that he received the references which were submitted with Information Disclosure Statements filed September 6, 2002 and October 4, 2002. Applicants respectfully request the Examiner to enter the following amendments and to consider the following remarks.

In the Claims

Please amend Claims 45, 52, 55 and 128 as follows.

45. (Amended) A method for identifying a compound which reduces the activity or level of a gene product required for proliferation of a microorganism, said method comprising the steps of:

(a) reducing the activity or amount of a gene product in a cell by expressing a sub-lethal level of an antisense nucleic acid complementary to a nucleic acid encoding a gene
